

23 Climate Wins for 2023

In recognition of Earth Month, the NewDEAL highlighted 23 Climate Wins for 2023 on our social media and in two Medium articles. Thanks in part to federal legislation such as the American Rescue Plan Act and the Inflation Reduction Act, cities and states are making major investments to address climate change. From cities adopting green buses to installations of massive solar and wind farms, there are reasons to celebrate, as NewDEAL Leaders across the country spearhead innovative legislation to combat climate change.

Here's a rundown of all the exciting features from our 23 Climate Wins for 2023.
